

Green Public Procurement City of Weiz

Dominik Puchner
Office for Environment and Mobility
City of Weiz
dominik.puchner@weiz.at

Beginnings

- First attempts to switch to sustainable cleaning supplies
- 15 years ago
- Main challenges:
 - Habits of housecleaning staff
 - Each department separately responsible for purchasing

Solutions

- Introduction of new products directly with cleaning staff
- Regular workshops for all employees in cooperation with experts
- Today: kindergarten, schools and public buildings only are cleaned with eco-friendly supplies
- Key: directly approaching staff

Other green procurement measures

- Office Supplies
- Events
- Vehicle fleet
 - E-Bike Sharing
 - E-Carsharing
 - Municipality vehicles
 - Utility vehicles
- District Heating

Thank you for your
attention!
